Digi IX10 and Digi IX20 Cellular Routers: Finance/ATM Terminal

Digi IX10 and Digi IX20 ensure the best primary or failover data connection performance when using LTE data at a stand-alone ATM Terminal. Both the products support:

- Compact and economical cellular routing platform with industrial feature set
- Redundant connectivity with dual SIMs and Digi SureLink
- Built-in Digi TrustFence® for device security, secure encrypted connections, ongoing monitoring and support
- Digi Remote Manager platform for easy setup, mass configuration and out-of-band management

ATM Terminal:

Connected Devices

- ATM
- Point of sale
- Credit card terminal
- Security cameras
